## AVIATOR

In the Aviator game, bets result in a multiplier linked to the plane's altitude. It's essential to cash out before the plane vanishes to secure your winnings. If the plane takes off before withdrawing, you lose your game Aviator bet. The Aviator slot maintains a 43% hit rate and a medium level of volatility.

## TEEN PATTI

The objective of the Teen Patti game is to have the best 3 cards in hand. Players bet on the strength of their hands, and the game proceeds with a series of betting rounds until only two players remain or someone requests a show. The player with the highest-ranking hand wins the pot

## LUDO

Ludo is a strategy board game for two to four players, in which the players race their four tokens from start to finish according to the rolls of a single die. Like other cross and circle games, Ludo is derived from the Indian game Pachisi.

## DRAGON TIGER

Dragon Tiger is extremely simple to play. Two cards are dealt: one to the Dragon betting position on the table, and one to the Tiger betting position. The betting position that gets the higher card wins. As the player, you place your bets on the Dragon, the Tiger or the Tie.

## HEAD & TAILS

Heads or tails is a fundraising game of chance where participants pay to play and then compete to guess whether a coin flip will result in heads (put hands on head) or tails (put hands on tail). This keeps going until one person remains standing.
